Re: Permit Transfers, Replacement Reclamation Contracts and Sureties, Umetco Minerals Inc. to Energy Fuels Nuclear, Inc., Pandora Mine, Hecla Shaft, and Redd Block 4, M/037/012, M/037/043, and M/037/046, San Juan County, Utah

Dear Mr. Almas:

The Division has received and reviewed your July 5, 1994 submittal of permit transfer forms, replacement Reclamation Contract forms and surety bonds for the Pandora, Hecla Shaft and Redd Block 4 mine properties. As I indicated to you on the phone July 6th, several errors have been noted which will need to be corrected as soon as possible in order for us to request formal approval from the Board of Oil, Gas and Mining on July 27, 1994.

I have attached yellow tabs to the original forms on those pages where corrections need to be made. We have made copies of your original forms with the necessary corrections for our records. I am returning the original forms with attached tabs along with a complete set of "clean" forms for your use in making the appropriate corrections.

We will proceed to prepare the necessary Board package documents, including the forms with noted corrections, for mailing to the Board on July 13th. A cover memo will indicate that Energy Fuels Nuclear will have all necessary corrections made and returned to the Division in time for presentation at the July 27th Board hearing.

Thank you for your cooperation. Please contact me or Tony Gallegos if you have questions in this regard.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor  
Minerals Regulatory Program
